To Whom It May Concern.

RE: MACFIELD CONSTRUCTION

Macfield Construction were engaged to build our development of 8 apartments at 17 Gladstone Street in Perth.

It was a tight site with zero lot boundaries on both sides and they managed to deliver good quality apartments and on time.

They assisted enormously by offering alternative solutions to issues that arose during construction, saving both time and money.

The relationship built during and after the project is still ongoing as I found Macfield's collaborative approach to be diligent, with the development's interest at the forefront at every point of the project.

I have no hesitation in engaging Macfield in the future or recommending them to any other developers or clients.

Sincerely

John Lagdon
